

## Who needs to hear the messages of Life Chain?

1. Women or girls who are pregnant and don't want to be. They may be in the process of figuring out what to do, or may be tempted to abort, or even be planning to abort. They need to be reminded that Abortion Kills Children and informed that Abortion Hurts Women.
2. Boyfriends, parents, girlfriends of those pregnant women and girls also need to see those messages before they pressure, advise, or help them to abort.
3. Women and girls who are not yet pregnant, but are living a lifestyle that puts them at risk for an unwanted pregnancy, need to be reminded that Abortion Kills Children and informed that Abortion Hurts Women. They may be thinking that if they do get pregnant they can just have an abortion; it's no big deal. The truth may get them to think harder about whether they want to risk getting pregnant.
4. Boyfriends, parents, girlfriends of those women who are vulnerable to unwanted pregnancy also need to see those messages. They may think harder about the risk their loved one is taking in being sexually active.
5. Women who have aborted in the past especially need to hear the message that Jesus Heals and Forgives. They may also need to learn that the prolife community is not out to condemn them but realizes that Abortion Hurts Women, that they are also victims.
6. Boyfriends, parents, girlfriends who have been involved in an abortion also need to hear that Abortion Hurts Women and maybe they were not helping their loved one when they encouraged or participated in that decision. As one of the few who are aware of the abortion, maybe they could ask her now how she feels about it. If they already realize how wrong the abortion was, they also need to hear that Jesus Heals and Forgives.
7. People who know abortion is wrong, but think women should be free to choose it because it is such a personal matter, need to be reminded that Abortion Kills Children and informed that Abortion Hurts Women. It is not a purely private decision for the woman, abortion kills a child. And if both women and children are harmed, why is it that it should be legal? (Who is it that benefits? Ah... the people who sell abortions.)
8. People for whom abortion is a non-issue in their political decision-making need to see that Abortion Kills Children and Abortion Hurts Women. They need to see that this many people care enough about the issue to be out here on the sidewalk. The message "Lord, Forgive Our Nation" reminds them that our nation as a whole is responsible for allowing this holocaust. Maybe they can give the issue a little more thought.
9. People who know abortion is wrong, are pro-life, but doing little about it also need to see the signs. (If all these people are out here on the sidewalk making these statements, and I agree with them, maybe I should be doing something, too.)

Mainstream media will not voice the messages of Life Chain.

Will you?
