

Are YOU a Voice for Life?

Do you feel well prepared to help your pro-choice friends and contacts to accept the pro-life view?

Do you know when to minister rather than debate? Should you bring God into the conversation? What about using graphic images? Is it important to establish some common ground?

Christian Voices for Life offers

Voice for Life Training

About 90 minutes of online videos and 15 pages of reading will give you lots of background information on life issues, teach you the importance of listening, establishing common ground, and using good questions to encourage someone to come to the right conclusion on their own.
