### Pro-Choice to Pro-Life in One Conversation

---

[MM1]

**Education:** It started out as a normal day for Bryan at Nicholls State University in March of 2017. He had been brought up to be pro-life but at college was told by his professors to start thinking for himself, and became pro-choice. But then he stopped at the Justice for All table. After about ten minutes of conversation, Grace, the JFA team member asked him “Bryan, have you ever seen images of abortion?” After his negative reply, Grace asked if he was willing to view them, and he said “Sure.” He was shocked by the pictures. The conversation continued for 45 minutes

as Grace “trotted out the toddler” to help Bryan understand that the central question relating to the morality and legality of abortion is “What is the unborn?” She also walked Bryan through fetal development and discussed philosophical arguments about whether the unborn is a person with rights, like the rest of us. Bryan loudly declared that if his girlfriend got pregnant, they would keep the baby no matter how hard it was! He began pulling aside his friends that were passing by and using the same reasoning he had just heard, convincing them to be pro-life as well! Bryan stayed with the table over 2 hours talking to both friends and strangers. His enthusiasm was a welcome change to the apathy often encountered. (1)

Justice for All trains pro-life advocates to create conversations that can change hearts and minds. They offer two day workshops, two hour presentations, and a “learn at home” program. (2) Equal Rights Institute also offers an excellent online video training for \$39.(3)

**Prayer:** Dear Jesus, Please help Americans to be open to the truth of what abortion truly is. Please call many pro-life advocates to pursue training on how to effectively help our pro-choice friends and neighbors to become pro-life. Help us to be courageous in starting conversations about abortion. Help us to listen well and wisely choose which tools to use, including graphic pictures if needed, to educate our friends and family members. Help parents to be wise in teaching their children about abortion, explaining the ‘why’ behind the teaching. Help our nation to move from pro-choice to pro-life, one person at a time.

**Action:** 1. **Think about how to educate yourself** on becoming a more effective advocate of the pro-life point of view. Christian Voices for Life has a [Voice for Life training program](#) with videos and reading material, available at no cost at our web site. An introductory video is only 15 minutes. Justice for All has their free [at home \(printed\) training](#), with discussion questions for groups, and a book [Common Ground Without Compromise](#). The online [video training](#) from Equal Rights Institutes has a number of short videos organized by topic.

**2. Share this email with a pro-life friend! - or several!** Every person who changes from pro-choice to pro-life is one more who will advise a pregnant friend to go to a pregnancy center rather than an abortion clinic.
