Bible-Based Pro-Life Curriculum

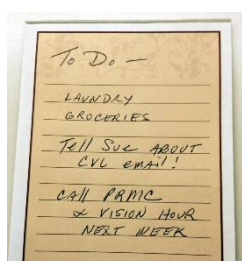

Education: The pro-life movement is about respecting human life in every circumstance, and working to build a society that does just that. What is the history of abortion in our world? What does the bible say that is relevant to the issue? What is the federal law and what are my state laws? What about eugenics and euthanasia? There is much to learn, from history and current events, as well as biology. And in addition to the facts, we want to know what scripture teaches us about loving others and obeying the law.

Courageously Pro-Life - Equipping Believers to Transform our World by Sarah M. Bowen is a 12 week curriculum which covers abortion and its history, eugenics and euthanasia, and abortion apologetics. Participants are equipped with a sound background knowledge of the subject areas as well as trained to articulate and share their pro-life views with those who disagree. The 12 weekly sessions can be adjusted to fit different time frames. Each chapter had solid information, definitions, relevant Scripture, and discussion questions. The study is designed for students to read and answer the questions in advance of the class. The curriculum does not mention contraception, in vitro fertilization, or the use of fetal tissue for research.

Prayer: Dear Lord Jesus, please help all Christians to understand the current elements of our society which are dis-respecting human life in so many ways. Please help this curriculum or other similar materials to be well known and used by many churches to educate Christians. Please inspire Christians to want to learn about life issues and to equip themselves to lead others to share the pro-life view. Please give all those who believe abortion to be acceptable to be open to hearing the pro-life view and changing their mind. Help our nation to become united in respect for life and to become a

nation where abortion is not only illegal but unthinkable.

Action: Consider whether you and others at your church might be interested in learning from this curriculum. Talk to your friends about it. If you have a group that is interested in offering the curriculum at your church, contact Marie McCoy at Marie@ChristianVoicesforLife.org. Marie has worked in the pro-life movement for over 30 years and would be interested in serving as an instructor in the course.
