

Books and New Movie from Abby Johnson

Education: Abby Johnson is well known as the former Planned Parenthood clinic director who became pro-life. Her book and movie *Unplanned*, not only shared her personal story, but also educated a great number of Americans about what goes on inside Planned Parenthood. She also founded a non-profit, **And Then There Were None**, to help abortion workers to leave their jobs. Over 600 “quitters” have stories similar to hers to share. (See abortionworker.com.) She also has written other books, and has a movie due to come out in the fall of 2024.(1)

The Walls are Talking came out in 2016, telling stories from former abortion clinic workers about what they experienced. Stories included an Asian woman whose large, white male companion filled out the forms and just told her to sign them. While the staff wondered about the situation, nothing was done. In another story, a staff member asked the management “Why aren’t we telling women the risks?” She was told “Because we don’t want to scare them.” “Won’t they be scared when they think they are dying from the crazy amount of blood they are losing?”

Fierce Mercy, published in 2022, is subtitled “Daring to live out God’s compassion in bold and practical ways.” She shows you how God’s mercy transformed her life, and how you can “take steps toward becoming a channel of that life-changing mercy in the world around you.” Abby challenges us to “dare to do what is hard, what is right, and what is good. And do all of it in love.” Abby’s books are available on Amazon.

Her latest project is *Unthinkable*, a documentary, again exposing what goes on inside abortion clinics. (2) Abby interviews a number of former abortion workers, and hosts group discussions with them. She points out that 65% of abortion clients identify themselves as Christians. She states that the fight to make abortions unthinkable belongs to the church, and we have work to do. Comments from Fr. Frank Pavone of Priest for Life, and Jim Daly of Focus on the Family are also included.

Prayer: Dear Father God, please help Americans to be aware of the deception, lack of concern for patients, and the horrendous experiences of abortion by pills, related in Abby’s books. Help everyone to understand the abortion is not about helping women, but deceiving them and subjecting them to dangerous procedures in order to sell abortions and turn a profit. Have mercy on abortion workers to help them get past their denial and accept the reality of what is happening around them. Help them to find out about the help that is available for them and have the courage to leave their job and find your healing love.

Action: Please talk to your friends and neighbors about the fact that you have become aware of the dangers to women from the deceptions and lack of concern by the abortion workers. When someone expresses the opinion that women should have the choice to abort, tell them that women have the right to make a free and informed choice. But clinics have ignored evidence of coercion, and they lie to women in order to sell abortions. Show your friend the evidence found at [Resources \(theunchoice.com\)](http://Resources(theunchoice.com))
