## Don't Believe the Media - Majority of Americans are Pro-Life

---

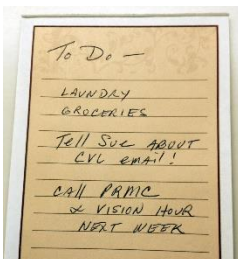

**Education:** Listening to mainstream media so consistently give the pro-choice view of events, you can get the impression that most of Americans must feel that way. But the liberal media biased in their coverage. Gallop has polled Americans 43 times since 1994 on abortion opinions. Grouping together those who think abortion should be legal in most or any circumstances as generally pro-abortion, and those who believe abortion should be illegal in all or legal in only a few circumstances as generally pro-life, pro-life Americans have consistently outnumbered the pro-abortion population in every poll. Over the years the numbers have gone up and down. Pro-abortion Americans ranged from 34% to 46%, with an average of 40%. Pro-life responders ranged from 51 to 62%, with an average of 57%. The difference between the two groups ranged from 5 to 27 percentage points, with an average of 18. (1)

Students for Life annually polls younger Americans – 18 to 34 year olds, otherwise known as Millennials and Gen Z. This group now makes up 31% of the electorate. The most recent poll showed that 8 in 10 want to vote on abortion policy in their states, and more than half would support a) a ban on abortion when a heartbeat is detected, b) limiting taxpayer funding of abortions and c) protecting healthcare workers to being forced participate in abortions, acting against their beliefs. 65% support in-person purchase of abortion pills to prevent others from giving the drug to a woman without her knowledge or consent, and 59% support adult engagement, such as a parent, guardian, or judge, before a minor is sold chemical abortion pills. **Prayer:** Dear Father God, please increase the understanding of all Americans that abortion takes the life of an innocent, living child. Please protect women and girls from being pressured to abort by boyfriends, husbands, parents, or abortion facility personnel. Help all Americans keep the value of life as an important factor in their voting decisions. Help members of the Democratic Party to change the party practice to pursue radical goals that a majority of Americans oppose. Help individual politicians be courageous in advocating for pro-life policies, and able to find the support they need to continue to serve in office.

**Action:** Mention to your friends that you are frustrated by the liberal bias of the media who cover events from a pro-choice point of view and give little coverage to large pro-life events. If they believe that most Americans are pro-choice, tell them about the poll results above, that a majority of Americans believe abortion should be either totally illegal or legal in only a few circumstances. And if they think younger people are more pro-choice, tell them that polls show more than half of 18-34 year olds would oppose abortion after a heartbeat is detected!
