Lies and Truth about Pregnancy Centers

Education: Pregnancy centers have been around for 50 years, and they have helped many, many women to choose life over abortion. Clients overwhelmingly report positive experiences at centers. Of course all this help to reject the temptation of abortion has cost the abortion industry money. Lies continue to be published to discredit pregnancy centers, as illustrated below.

1. **Lie:** “Most fake ‘clinics’ are unlicensed, so they don't fall under medical board requirements.”
from ExposeFakeClinics.com (1)

Truth: Pregnancy medical centers are supervised and directed by a licensed physician (who is accountable to all applicable medical board requirements and state laws).(1)

2. **Lie:** “Crisis Pregnancy Centers Rely on Deception” from NARAL, *The Truth about Crisis Pregnancy Centers* (2) NARAL is “National Pro-Choice America” originally Natl. Asso. for Repeal of Abor Laws.

Truth: Pregnancy centers adhere to a national code of ethics called, “Our Commitment of Care and Competence” (CCC), which addresses the vital importance of truthfulness in communications.(1)

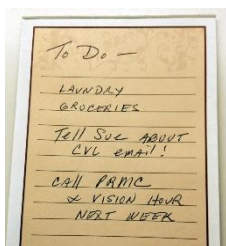

3. **Lie:** “CPCs frighten patients with myths about abortion.” Teen Vogue, June 21, 2017. (3)

Truth: Pregnancy centers rely on scientific studies about the short and long-term effects of abortion in order to empower clients with facts before making a life-altering decision.(1)

Prayer: Dear Father God, please bless the pregnancy centers around the nation and the world who are working to help women with the choice for life. Help them to find the volunteer and financial support that they need to continue and maximize their services. Send them dedicated staff members who will serve the ministry well. Send them your grace and encouragement when they face obstacles and difficult times. Bless Heartbeat, CareNet, and other organizations which support pregnancy centers and help them to grow and improve. Thank you, Lord, for the opportunity to participate in showing your love and care to women in unplanned pregnancies.

Action: Learn more about the [Pregnancy Resource Medical Center](https://www.pregnancycentertruth.com) or your local pregnancy help center by visiting their web site, and consider volunteering or donating to support their work. While the whole community is quick to rally around a homeless shelter or food bank, the controversial nature of the abortion issue makes fundraising for pregnancy centers more difficult. Tell your friends about the center so they know the truth of how pregnancy centers give valuable help their clients.
